EC-Council Certified Cybersecurity Technician (CCT)

EXPERIENCE

Freelance Shopify Developer

First Avenue (Client: Nick Patel) | Apr 2026 – Present

- Designing and building a custom Shopify theme from scratch using Liquid, JavaScript, and CSS, tailored to the brand's catalog and UX goals
- Providing ongoing theme maintenance and feature updates as the storefront evolves
- Working directly with the business owner to translate brand direction into a functional, responsive storefront

Webmaster / Web Content Administrator

Phoenix Fitness, Milltown, NJ | Sep 2024 – Present

- Builds and maintains front-end features for high-traffic websites (HTML, CSS, JS, TS, React, Tailwind)
- Migrated and optimized 120+ legacy CMS pages, reducing average page load time by ~35% and improving SEO
- Manages CMS-driven content, navigation config, and front-end updates across Agile release cycles with Git
- Ensures WCAG 2.1 accessibility compliance and cross-browser/responsive rendering
- Improved Lighthouse performance scores via asset compression, caching, and front-end optimization

Software Quality Engineer

Zeek Interactive, St. George, UT | Feb 2022 – Jul 2024

- Tested and validated React, TypeScript, and PHP/Laravel web applications alongside the dev team
- Built automated regression suites with Selenium integrated into GitHub Actions CI/CD (~90% test coverage)
- Created and executed test plans for features, forms, and UI components; documented defects in Jira
- Validated UI/UX, accessibility, and brand consistency with design and dev teams before release
- Monitored web performance and recommended front-end enhancements that improved engagement

Marketing Intern / Webmaster

Verdure Sciences, Noblesville, IN | May 2018 – Sep 2018

- Built 10+ SEO-optimized product landing pages (WordPress, HTML, CSS, JS) — ~15% lift in user engagement
- Designed brand assets and UX-focused layouts using Adobe Creative Suite
